

Bonnie Liposchak, Math Lab

Subjects Taught:

- *Math*
- *30 years experience*
- *Bachelor of Science in Biology & Health degree – Heidelberg College*
- *Masters in Education – Kent State University*

How she got into teaching:

"My undergraduate degree was not in education at all. It wasn't until after I had twin boys of my own that I decided to go back to school again. It was exciting watching them grow & learn. I wanted to experience that excitement with other children too."

Teaching Philosophy:

"My role as a teacher is to analyze each child's learning style & to maximize his/her strengths while providing opportunities to enhance Math skills."

Favorite thing about St. Francis:

"The tremendous support I have received from the parents, staff, and administration."

*"Learning is a life process! Make the most of every opportunity."
Bonnie Liposchak*
